## **OUTCOME / RECOMMENDATIONS**

All Odisha SC-ST Chamber of Commerce and Industries to start generic advertisement of food processing and promotion of World Food India - 2024. The promotion of food processing sector and its awareness throughout India is critical for Odisha food and Agri economy. On the line of millet, meat and fisheries.

Govt of Odisha officials and OSCI shared the benefit of World Food India – 2024 to entrepreneurs, FPOs, Food & Agri Industry. Govt. of Odisha is also participated as a Focus State in World Food India – 2023 and so many entrepreneurs, FPOs show the interested to become a part of the mega event.

Prime Minister Formalization of Micro Enterprises (PMFME) scheme is working towards developing the food processing sector in various districts of the Odisha and aims to benefit to so many beneficiaries/entrepreneurs. Odisha which a leading state in agriculture & food processing sector has already taken benefit under PMFME scheme.

More than 400+ delegates attended the program. Many Food processing Industry members, FPOs and Entrepreneurs shared their business experiences as well.

Listed below are the recommendations that were proposed from two technical sessions:

- Awareness programs for the promotion of MoFPI's Schemes.
- To address the challenge of adding millet to food basket, new, appealing recipes should be developed.
- Branding, packaging, and advertising are a must to reach a large base of consumers
- Exploring and understanding the gaps in productivity, technology, and extension for food processing promotion in Rayagada, Odisha
- The food processing specific interventions in agricultural input markets

- Finding opportunities and challenges for millets based food entrepreneurs
- Creating opportunities for processing food and millets research for relevant clinical data supporting beneficial claims of millets
- The object to pursued overall development, the event benefited farmers, FPO's & Stakeholders and Entrepreneurs of Food Processing & Agriculture sector in Odisha.
- The presence of a large number of untapped markets will also encourage new players to enter the market.
- To provide valuable knowledge along with building capacity of farmers with latest technology required in this Food Processing sector

## **ABOUT OSCI**

The All Odisha SC-ST Chamber of Commerce and Industries has been working SC-ST community in Odisha faces significant challenges and deprivation in terms of access to schemes and basic facilities. Our Chamber of Commerce is committed to empowering SC-ST entrepreneurs and uplifting their socio-economic status. Through our extensive network covering 30 districts of Odisha and a forward looking, proactive and dynamic PAN-India, we provide comprehensive services for entrepreneur development, including training, knowledge sharing, and exposure to new opportunities. OSCI works at the grass roots level with strong national linkages for propelling progress, harmony, and integrated development of the Indian economy.

Our vision is to create a vibrant and inclusive entrepreneurial ecosystem in Odisha and other States in India where SC/ST entrepreneurs are recognized as catalysts for economic progress. We envision a future where SC/ST entrepreneurs have equal access to financial capital, mentorship, market linkages, and skill development programs. Through our efforts, we aim to foster a culture of entrepreneurship that celebrates diversity, empowers individuals, and fosters economic self-reliance among the SC/ST communities
